They share what they get equally between them.

How much money do they each receive?

Computing

This week have a look at creating your own google logo using scratch. You will be creating a code just like we have done in class when we created a World War Two story creator.

You do not need to have scratch downloaded on your computer, just click '**Starter Project**' on the link below.
<https://csfirst.withgoogle.com/c/cs-first/en/create-your-own-google-logo/create-your-own-google-logo/create-your-own-google-logo.html>

What is the most interesting customisation you can make?
 Can you make your logo dance to music?

There are instructions for each customisation if you need any help.

Remember to send us photos of your finished logo and the coding for each letter, just like the picture shown here.

P.E

Great work to everyone who has kept up with Mr Malkin and the Links team's challenges. At Bankwood, we are also lucky enough to work with Thornbridge Outdoors. Please have a go at least one of these simple yet exciting looking outdoor homework challenges!

Take a picture or video of you completing a challenge and email it to your teacher. Could you complete all of these challenges over the summer holidays?

Your task this week

How did you get on with the long jump activity a couple of weeks ago? Here's the next stage! Standing long part 2. Please remember to do this in a safe space and to bend your knees when you are both jumping and landing.
